EDUCATION

KIT-KalaignarKarunanidhi Institute of Technology - Coimbatore,India

B.E - CSE(AI&ML), Pre-Final year

2023 – 2027

Current **CGPA**: 7.10/10

Coursework:Machine Learning, Data Structures and Algorithms, Web Development

EXPERIENCE

FullStackIntern - Ether Infotech

- Built a MERN e-commerce site with a responsive React storefront, Express.js REST APIs, and MongoDB models for users, products, carts, and orders.
- Implemented JWT auth, admin dashboard, product catalog with search/filters/pagination, cart/checkout, orders, reviews, and payment integration; optimized with validation, error handling, and MongoDB indexes/aggregations.

PROJECTS

SyncWatch

- Developed SyncWatch, a real-time synchronized watch-party platform with host control and live chat..
- Integrated an ML-based genre prediction system (TF-IDF + Logistic Regression) via a Flask API to auto-classify videos and support recommendations.
- Built session tracking and watch history with SQLite and a role-based responsive UI..

IoT-Based Smart Soldier Health Monitoring System

- Built an IoT-based Smart Soldier Health Monitoring System to track heart rate, SpO₂, and blood pressure in real time for field safety.
- Flags suspicious suspicious entries with fraud scores and clear explanations, helping HR teams make accurate and secure hiring decisions.
- Sends real-time alerts to commanders and medical teams during abnormal health conditions, enabling faster emergency response and improved soldier safety.

Fake Job Detection System

- Built an ML-based system to detect fake job experiences by identifying fake companies, date overlaps, and unrealistic roles.
- Automatically flags suspicious entries with fraud scores to support accurate and secure hiring decision.
- Uses NLP-based text analysis to evaluate job descriptions and improve the accuracy of fraud detection.

TECHNICAL SKILLS

Programming: Python | JavaScript

Web Technology: HTML | CSS | React | MongoDB

Tools:Github,VS code,Jupyter

CERTIFICATIONS & COURSES

Design Thinking—**NPTEL**

Certificate of Achievement — **Python Foundation Certification**

Certificate of Achievement — **Artificial Intelligence Foundation**

Introduction to Artificial Intelligence — **Coursera (by IBM)**

Artificial Intelligence Fundamentals — **IBM SkillsBuild**

COMPETITIVE PROGRAMMING

Leetcode : Max rating - **1416** | Solved problems: **250+**

Codechef : Max rating - **1684** | Position: 3Star | Problems: 250

ACHIEVEMENTS

- Presented a paper titled “Automated AI Data Cleaning and Preprocessing for Machine Learning Systems” at ICCSS’25.
- NCC: Achieved IGC in TSC camp; demonstrated leadership, discipline, and teamwork.
- Athletics: 3000-meter state-level competitor; built endurance, focus, and resilience.
- Secured 2nd Prize in Paper Presentation at a National-Level Technical Symposium, KPR College of Engineering & Technology.
- LeetCode: Earned the 100 Days of Code Badge for consistent problem-solving and coding practice

VOLUNTEERING

- Member of the NCC, actively involved in event management and hosting sessions for various College events
- Taught Java programming fundamentals to junior students, delivering hands-on exercises to enhance learning and coding skills
- Coordinated an event during the Trojans of the Technical Symposium, Facilitating seamless implementation of the participants
- Entrusted with responsibility - Organized tasks with effective effort and smart intelligence, emerging as a proactive leader.
- Disciplined Time Manager - Consistently balancing tasks with smart effort, clarity, and on time delivery.
